**Cover photo: The Nokia inventor network (in Uusimaa, Finland) constructed using European Patent Office patents at the end of 2006. The network, which began to grow in 1993, contained 1356 inventors by that time. See pages 29–30.**

---

*New Zealand Science Review* provides a forum for the discussion of science policy. It covers science and technology in their broadest sense and their impacts on society and the environment, both favourable and adverse. It also covers science education, science planning, and freedom of information. It is aimed at all scientists and decision makers, and the interested public. Readability and absence of jargon are essential.

Manuscripts on the above topics are welcome and should be sent to: The Editor, NZ Association of Scientists, PO Box 1874, Wellington, or e-mailed to [allen.petrey@xtra.co.nz](mailto:allen.petrey@xtra.co.nz)
